## (6) SPECIFICATION

Suitably qualified, capable and experienced bidders are hereby invited to submit price quotations for the Review and development of level1 to level 3 of Disaster Management plan.

## REVIEW AND DEVELOPMENT OF LEVEL 1 TO LEVEL 3 DISASTER MANAGEMENT PLAN (Terms of Reference)

## A. Purpose.

The purpose of this document is to persuade the municipality to appoint a service provider to facilitate the review and the development of a level 1 to level 3 Plan. The service provider should be appointed for a period of three years so as to put the municipality at a level 3 Disaster Management Plan.

## B. Background

Maruleng Municipality is primarily responsible for the implementation of the Disaster Management Act, 2002 (Act 57 of 2002). The amendment to the Act that was effected in 2015 made it clearer that local municipalities will have to develop capacity for the coordination of the Disaster Management function.

The outcomes of the disaster management planning process must ensure that all development initiatives as well as all risk reduction measures, response and recovery activities of the municipality are informed by accurate knowledge of disaster risk, enabling various stakeholders to contribute to the prevention, mitigation and reduction of disaster risk within the municipality.

## C. Motivation

The overall objective of developing level 1 to level 3 Disaster Management Plan is to establish uniform approach to assessing and monitoring disaster risk, implementation of integrated disaster risk management plans and risk reduction programmes as well as effective appropriate disaster response and recovery initiatives. The municipality appointed a Consulting company in 2018 to undertake the review of the Disaster Management Plan. The current approach will be different from that one in that the intension is to build capacity internally so as to have a working system in place that will be able to maintain the plan. The process will have to be undertaken in the following manner which is in line with all relevant Disaster Management legislation and guidelines in the country as developed through the NDMC:

| LEVEL OF PLAN | CRITICAL OUTCOMES  |
|---------------|--|
| 1             | <ul> <li>Development of current reality assessment</li> </ul>          |
|               | Establish foundational institutional arrangements for                  |
|               | disaster risk management   |
|               | • Develop and implement response and recovery for                      |
|               | known priority risks   |
|               | Develop the capability to generate a level 2 Disaster                  |
|               | Risk Management Plan   |
| 2             | Establish processes for comprehensive disaster risk                    |
|               | assessment   |
|               | <ul> <li>Identify and establish consultative mechanisms for</li> </ul> |
|               | specific priority disaster risk reduction projects                     |
|               | <ul> <li>Develop a supportive information management</li> </ul>        |
|               | system   |
|               | <ul> <li>Develop emergency communication capabilities</li> </ul>       |
| 3             | <ul> <li>Establish specific institutional arrangement for</li> </ul>   |
|               | coordinating and aligning plans  |
|               | <ul> <li>Establish mechanisms to ensure ongoing relevance</li> </ul>   |
|               | of disaster risk management policy framework and                       |
|               | plans  |

## (13) CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
  - 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
  - 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

<sup>&</sup>lt;sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>&</sup>lt;sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
